story

A fiction. An 11 year old runaway, the oldest daughter of three. An absent mother, an abusive father, a grandmother too pure to imagine what is going on. A field trip, the girl disappears... she has found refuge in a truck; an initiatory journey, a chance meeting, new encounters; a wonderful and tragic road movie with a Scottish truck driver "when love just happens".

about the director

Raised in Versailles, with a very classic education of the 1950's, she wanted to be a curator, to be closer to the arts, which as a teenager she was already passionate. By chance and necessity she became a designer and opened the first boutique on the rue du Jour when she created her brand agnès b.; In 1984 she opened an art gallery la galerie du jour agnès b. next door to the boutique.

Forever involved with art and artists, she tackled film and established Love Streams, her film company. She also publishes a free periodical each one entirely dedicated to one artist, *Point d'Ironie*.

Having always wished to express herself in ways other than just design, a long time ago she wrote a story, "My Name is Hmmm..." in a couple of days and was finally able to shoot the film in 2012/2013.
