## Pitch

In the eighties a young woman raises her daughter and baby alone. She wanders all day through the flat. The radio, the TV and staring at the walls of her own jail are part of her daily routine. Her only companion is a goldfish.

One evening when the daughter returns from school, she can't find her mother. Only the goldfish and the baby remain.

## The movie

Dark comedy with unpredicted end «Sushi or no sushi...?», builds itself on some particular narrative schemes (such as voice-off takes and shots of fragile moments). The attentive audience would find a double message in this slightly acid slice of life .

*Enjoy with or without chopsticks!*
