Microbes Welcome !

The spectacular increase in the number of cases of allergies and asthma is mobilising many scientists around the world. This title reveals the main reason is the lack of diversity of microbes in our increasingly germ-free environment, and it explains the beneficial role of microbes for our immune system, particularly for the youngest.

Obituary

24-year-old Elvira Clancy is feeling unfulfilled, although she adores her job writing obituaries. When her newspaper falls on hard times, her boss tells her he is unable to keep her on the payroll and she finds herself being paid per obituary overnight. When she “accidentally” kills someone, she discovers she might have an untapped bloodlust!

Sepia, the Odyssey of a Cuttlefish

Like Nemo, the fish Sepia is a tiny cuttlefish that sets off to meet odd characters and discover astonishing landscapes.

As she explores the ocean, Sepia finds herself drawn into a major migration of marine animals on a colorful journey that brings together singular protagonists such as a seal, tiny sparkling shrimp, and strange tree-shaped corals.

Rama X, the Mad King of Thailand

In 2016, Rama X became king of Thailand. Extravagant and hot-tempered, he repudiated members of his family, had opponents murdered, and chose to rule his kingdom from his residence in Bavaria. His erratic and often criminal ruling impacts all of Southeast Asia, which plays an essential part in the geopolitical agenda of China and the US.
